

## **What they are saying about AT Tracker Plus.**

Tracker is great! I've really buckled down this year and am using it for everything! I track everything! I have my referrals, request, and evaluations linked to each kido and can even tell you what day teacher requested help and when I went to help them. I LOVE IT!!!!

Allison Vice, SLP, Vermilion Parish Schools

Dear Sherry,

We just wanted to take a minute to tell you how much we enjoy AT Tracker Plus. The new features of the Plus version make it much easier for us to enter, track, and report our assistive technology information.

As you know, we've been using AT Tracker since 2003 and it's proven so helpful for our entire special education staff. We service 24 different buildings with approximately 2300 students who receive special education services. Prior to using AT Tracker, we had to just take a guess on where equipment was located or which students had been assessed for assistive technology. All of that information is now easily accessible in AT Tracker and by not having to travel the district to find equipment; we've been able to save quite a bit of money over the years.

Not only do we really benefit from using the program, but we appreciate the availability of you and your staff. Your technology department proved to be knowledgeable and helpful when we recently upgraded to the newer version and the transfer of data went much smoother than we anticipated.

Thanks for a great product!

Just wanted to let you know that we finally got our AT Tracker up and running. We were able to input all of our students and equipment inventory all this week. WE LOVE IT! Debbie and I have our computers linked together now and can share info on the spot and always have the most updated info to view. It has really helped us get organized for next school year. We anticipate great things for next school year with the help of AT Tracker. We are so organized now we scare ourselves. Ha! It is really going to be great to prove how extensive of a job AT can be. Thank you for all of your hard work and dedication to AT.

Lauren Pharr, Occupational Therapist, Evangeline Parish School Board

Sherry,

Thank you for your help. A apologize for the delay in getting back to you. I am up and running with the inventory software now! Love it! I'll let you know if I need more assistance.

Cindy Hall, M.Ed., Pre-K SLP  
South Fork Elementary School  
Assistive Technology Specialist

"I would have LOVED AT Tracker when I was in a district where we spent HOURS trying to keep track of devices and services!!!! Sometimes it seemed like we had to make a choice between using time to keep track of things OR using time to USE those things with staff and students to improve student results!!! Most of the time we were frantic because one or the other - or both sometimes - was not getting done! The AT Tracker program makes keeping records so much easier.. I think it would be possible to both provide effective services AND keep a useful and up-to-date record of those services! What a concept!"

Sherry,

We currently have AT Tracker 2.3 - 1K. Is there a newer version available and if so, what would the upgrade price cost? We LOVE the product. It has made our lives so much easier!!!!

Thanks,  
Kelly Carlson
